

We Understand Your Business

CSIA Property/Casualty Insurance Program

- Tired of working with insurance people who do not understand what you do?
- Tired of being wrongly classified by your insurers?
- Tired of not being advised how to reduce your exposure to loss?
- Tired of not receiving advice on the contracts your customers want you to sign?

If the answer to any of the above is "YES" then you need to be part of the Control System Integrators Association community. Dedicated to improving control system integration best practices and performance, CSIA now provides our membership with the only Property/Casualty Insurance Program dedicated to control system integrators.

Fundamental to our Insurance Program is risk management and loss control services which, when successfully implemented, result in our ability to offer the breadth of coverage and competitive pricing to our members that are outstanding features of our program. Working with our insurance agent and carrier on CSIA best practices and certification procedures, we ensure that included within every member's business tools are effective ways to reduce risk and thereby protect their balance sheet. All participants in our Insurance Program also gain access to our free contract review services.

Coverage options include:

- General Liability/Completed Operations
- Professional Errors and Omissions
- Umbrella
- Workers Compensation
- Property
- Business Interruption
- Transit/Installation Floater
- International Exposures
- Directors & officers
- Automobile
- Crime/Fiduciary
- Employment Practices Liability

To find out how the CSIA Insurance Program can improve your business, contact Paul Barnard our Insurance Program Manager paulbarnard@csia-insurance.com | (610) 507-6595

CSIA can offer these programs because we and our insurance carriers understand your business and have crafted unique policy forms that respond to your needs.
